

PRODUCT LINES

Burger & Brown Engineering, Inc. (www.plastixs.com/bug1.html)

- Smartflow **Water Manifolds** – Aluminum or Stainless Steel construction. FasTie Quick Ejector Tie-in System, Mold Temperature Controllers, Flow Meters, Purge Valve, Thinswitch and Smartlock Mold Switches.
- Plastixs **custom manifold assemblies** and quick change magnetic manifold systems.

IPS – Mold Shields and Chutes (www.plastixs.com/found1.html)

- **Retractable Mold Shields™**, Mold Chutes and Skirts for containing injection molded parts.

Morris Coupling Company (www.plastixs.com/morris3.html)

- Material handling system components. Aluminum and Stainless Steel tubing, elbows and **couplings**.

Moulds Plus International (www.moulds.org)

- Featuring the **Ultra Purge** product line of high performance purging compounds. Featuring 7 grades covering all materials and applications. Residue and odor free!

Paratherm (www.plastixs.com/para1.html)

- Advanced **heat transfer fluids** for high temperature applications. Featuring non-fouling, oxidation resistant, non-toxic, thermally stable, multi-component fluids.

Plastixs Ejector Pins and Mold Components (www.plastixs.com/ep01.html)

- A full line of **ejector pins**, mold components. Stocked in New England for immediate delivery.

Plastixs Safe-Lock™ Couplers and High Temperature Hose Assemblies

- **Safe-Lock™** coolant line connectors, **cannot be disconnected** when pressurized, eliminate the risk of injuries. 100% compatible with existing 200, 300 and 500 series connectors. Use with high temperature hose for increased safety. (www.plastixs.com/t01_01.html)
- **High temperature** hose and hose assemblies. **EPDM** – 280°F water, **silicone** with Stainless Steel braid – 330° F water, **Viton** with Stainless Steel braid – 395° F oil and water, all with crimp ferrules and low cost crimper for use with standard and **Safe-Lock™** barbed fittings. Teflon and Stainless Steel fabricated hose assemblies also available for applications over 400°F. (www.plastixs.com/t01_02.html)

Plastixs Drum and Gaylord Covers (www.plastixs.com/found4.html)

- Drum covers with one and two ports and many sizes and styles of **gaylord covers** in stock.

PowerTECH Components, Inc. (www.plastixs.com/power1.html)

- Junction Boxes and **control cables** for Hot Runner Molds. 5-128 zones per Junction Box. These Junction Boxes are pre-wired with terminal strips and include connectors.

Spaltech International (www.plastixs.com/spal1.html)

- The original **Vacu-Bin** line of self-emptying resin handling bins, 100-500 lbs.
- Drawer magnets for the protection of plastic processing machinery from ferrous metal.

Slide Products, Inc. (www.plastixs.com/slide2.html)

- Bulk and aerosol products for molding, tooling and industrial applications. All types of mold releases, **mold cleaners**, lubricants, purging compounds and mold preservatives.

Thermal Corporation (www.plastixs.com/therm1.html)

- Band and strip heaters, cartridge heaters, **thermocouples**, RTD probes and sensors. Same day or next day shipment for standard and special configurations.

Tigerflex (www.plastixs.com/hosemain.html)

- Material **conveying hose** from 1" diameter. One of the widest ranges of PVC and urethane lined hose available. Single and multi-layer hose with or without grounding wires.
