

New FLOW MONITOR Replaceable Flow Vane type

The flow of cooling water can be checked at a glance.

For low pressure Applicable fluid * **Water**

*This product cannot be used for gas. If oil is used, the durability may reduce depending on the compatibility of the oil or additive with the plastic part. Please use the FLOW MONITOR after thorough evaluation.
This product is not "CUPLA".

Check the flow with the rotating two-colored impeller

Visibility

Fluid flow from low flow rate (0.55 GPM) can be visually checked with the rotating two-colored impeller.

Easy maintenance

Flow Vane ASSY can be replaced without removing it from the piping (both models).

Safety

The stopper prevents unintended removal of the plastic parts.

Easy installation

The installation and replacement is easy since the screw part of T2 side rotates freely to the left and right.

Recommended replacement time of Flow Vane ASSY

Flow Vane ASSY

If the Flow Vane ASSY is dirty or cloudy and the impeller is difficult to see, replace it regardless of the recommended replacement time.

The recommended replacement time for this product is calculated based on the amount of wear on the internal parts of the Flow Vane ASSY. Refer to the graph below for the recommended replacement time.
*The durability varies depending on the usage environment and conditions. (pressure, temperature, etc.)

Flow Direction

Fluid flow can be bi-directional.

FLOW METER

CUPLA related product / Flow meter with special valve

Fluid must flow in the direction of the arrows.

*Plastic part (graduated tube) cannot be replaced. This product is not "CUPLA".

Specifications

Model	FM-03-B
Size (Thread)	Rc 3/8"
Body material	Brass
Graduated tube material	Polycarbonate
Working pressure ⁻¹	0.5 MPa, 5 kgf/cm ² , 5 bar, 72.5 PSI
Working flow range	1.35 to 4.75 GPM (5 to 18 L/min)
Seal material (Mark)	Nitrile rubber (NBR)
Working temperature range ⁻²	+50 °F to +140 °F (+10°C to +60°C)
Mass	0.42 lbs (190 g)

Maximum Tightening Torque

Nm {lb-in}

Torque	11 {97}

Safety Guide

Read without fail and observe the "Instruction sheet" that comes with the product and the following pages in the Quick Connect Couplings General Catalog; [Precautions Relating to the Use of All CUPLA].

*1: The normal allowable fluid pressure under continuous use.
Continuously exceeding the working pressure may cause leakage or damage.
*2: The operable temperature range depends on the operating conditions.

[trademark (CUPLA)] is registered in the United States.
